

ALLEN COUNTY USED TIRE RECYLCING

Allen County Code Title 10 Article 11, Public Health Hazards, Section 2-13 states “*Tires shall be covered to prevent the existence or presence of any water in which mosquito larvae may mature and grow or exist. If stored outside, tires must be off the ground and covered in a manner to prevent standing water. Any tires that cannot be used for the original intended purpose shall be disposed of in a proper and lawful manner to prevent the collection of stagnant rain water in them*”.

Mosquitoes that can carry disease, such as West Nile virus, prefer to breed in un-rimmed tires or in the water that collects on the rims of rimmed tires. In addition, rodents can drink the water collected in the tires. Therefore, these tires pose a public health risk and must be stored properly or removed. The following list of tire dealers is provided to you for proper disposal of your unused tires for a small fee.

If the tires are not properly removed from your property within the time frame specified on the inspection report, a fine may be assessed for non-compliance.

<u>DEALER*</u>	<u>ADDRESS</u>	<u>PHONE</u>	<u>CHARGE FOR USED TIRES</u>
